THIS IS UNEVALUATED INFORMATION 50X1-HUM

1. The application forms of subscribers to the "Narodna Pozyeska Rozwoju Sil Polski" (National Loan for the Development of Poland's Resources) have been submitted to an exhaustive examination by PZPR Committees and U.S. officials specially assigned to this task.
2. As a result of this examination subscribers were segregated into the following three categories:
 - a. Subscribers applying for amounts equivalent in value to 15 - 20 days' earnings (a contribution which it is considered should be expected from everyone). In this case no action was taken against these subscribers.
 - b. Persons applying for lesser amounts or failing to make any application at all. Party members falling into this category were summoned to appear before the Party and "persuaded" to increase the amount subscribed. On the other hand, if the delinquent was not a Party man he was brought before the U.S. authorities and subjected to an interrogation on general matters in the course of which it was made clear that he would do well to step up his subscription if he wished to avoid trouble in the future.
 - c. Persons whose subscriptions appeared to be unduly high. This category of subscribers was treated with marked suspicion and immediately card-indexed and investigated to find out the motive for exceeding the normal amount applied for in subscribing to this admittedly highly unpopular loan.
3. Special envoys were sent to certain localities where efforts to obtain subscriptions had proved a complete failure, e.g. the Sulechow (O 53/W41) district. However, since these envoys had been given strict orders from the Party not to summon meetings on the matter, and the inhabitants concerned evaded all personal approach by going into hiding, their mission proved abortive.
